La, la, la, la, la, la, la (yeah)

La, la, la, la, (A-town) la, la, la (A-town)  
La, la, la, la, (A-town) la, la, la  
You like dat?

Go to sleep (Go to sleep)  
Go to sleep (Go to sleep)  
If you tired  
It's alright go to sleep [repeat]

[Verse 1]  
Hush, hush baby  
Don't cry darling  
Daddy's here to heal your heart and  
It's so crazy, cause once I'm started  
It's hard to turn me off  
Shawty, it's the way your looking at me lately  
Like your patiently waiting, baby  
Let's me know that he ain't taking his turn now to break you off

[Break]  
I got the fly, fly  
I got that work, work  
Up in the bedroom  
Until them birds chirp  
We rippin' off shirts  
We taking off skirts  
There's something I wanna tell you  
I will never fail you noooo

[Chorus]  
Baby, I can give you what you want  
There's nothing you'll regret  
Promise I'm no tease  
Cause your too damn fine to be alone  
It's time to go to sleep and have sweet dreams  
Girl I ain't trying say just what you like  
Got a coupla tricks hidden up my sleeve  
Baby won't you come and stay the night  
It's time to go to sleep and have sweet dreams

[Verse 2]  
Ohhhhhoh, baby it's past your bedtime  
Lemme tuck you in  
I'll make you feel good  
I heard you been having some nightmares  
I'm here to take care of that problem for you  
I'll be you dream catcher babe  
Help you take your mind off that stress he gave  
Take ya from your bed to your dresser babe  
Shawty I'll stay with ya  
Yes I will

[Break]

[Chorus]

[Verse 3: Rapping]

She said she was attracted  
To my fresh white kicks  
And the dickie suit  
Seen me in the trap  
Heard I rap  
And I'm gettin' loot  
Damn shawty cute  
Miss ma'am could you distribute  
The time my way  
And give that lame to boot  
Cause we don't know how to act when we 'bout that action  
And this Cris' got me tryna push your back in  
Till we both faint  
Sit and think 'bout how relaxin  
It is to have the heat  
Guranteed satisfaction

[Break]

[Chorus]

[Talking]

Said shorty I'll give you what you want  
I know what you need  
Nothing you'll regret  
Promise I'm no tease  
Put you legs up  
Buckled up at the knees  
Like those birds and those bee  
Having walking around with a gangsta lean
