

## All In

## Lo Moon

Silver ridge bends in the dead of night  
I can drive this street with my eyes closed  
Count the windows just to see the light  
Will I lose my mind if I let this go?

Now your love never lets me down  
In my dreams, I've got my feet on the ground  
And when we're lost in the lights downtown  
You can look up  
The stars always love you, and I'm all in

It was touch and go for the longest time  
Inside you know I'm still confused  
When you said there's nothing left to hide  
If I beg borrow now we'll never lose

Now your love never lets me down  
In my dreams, I've got my feet on the ground  
And when we're lost in the lights downtown  
You can look up  
The stars always love you, and I'm all in

I'll never love again

Now your love never lets me down  
In my dreams, I've got my feet on the ground  
And when we're lost in the lights downtown  
You can look up  
When it's love
