

Dream Never Dies

Lo Moon

Long ago taken roads we don't know on our own
Lockin' eyes late at night butterflies, hold me the rest of my life
Tell me you feel it right?

Let this go whats the use, the more you know the more we lose
What if I said to you we'll never be, now you know what its like
It's not just me am I right?

What happened to all the easy days of summer?
Back when we were younger, dreaming through the thunder
Radio was blasting, heavens everlasting
If I can make this last, and all I have to do is close my eyes

Hope the dream never dies
Hope the dream never dies
Hope the dream never dies

Trying hard just to stay, safeguard yesterday
Lost eyes late at night, tell me why, stay here the rest of my life
Promise me you'll try

Now we're getting older what will we remember?
Morning drives in winter the world we knew is over
Radio still blasting summer's everlasting
If I could bring you back, and all I have to do is close my eyes

Hope the dream never dies
Hope the dream never dies
Hope the dream never dies

Hope the dream never dies
Hope we make it out alive

What happened to all the easy days of summer
Back when we were younger
Dreaming through the thunder
Radio still blasting, heavens everlasting
If I can make it last

What happened to all the easy days of summer
Back when we were younger
Dreaming through the thunder
Radio still blasting, heavens everlasting
If I could bring you back
And all I have to do is close my eyes

Hope the dream never dies
Hope the dream never dies
Hope we make it out alive
