

Thorns

Lo Moon

We walked through the fire
How did we ever survive this?
We tangled the wire
And hid behind what's emptiness

But
No one can love you
No one can love you the same
I'll always want you
I'll always want you this way
We'll learn to outgrow
The thorns on the rose
Thorns on the rose
Thorns on the rose

We tripped through time
But, we were only children then
So we couldn't find
That we'd hold on beginning to end

Yea

No one can love you
No one can love you the same
I'll always want you
I'll always want you this way
We'll learn to outgrow
The thorns on the rose
Thorns on the rose
