

## Is It Really You?

Loathe

Face away  
Deal with the pain  
Your own way  
How could they,  
Deal with the pain?

I knew  
It was mine too  
And you?  
Is It Really You?

Let's search the sky for a while  
You and I collide like two stars for a while  
You and I

Crushed by silent snow  
Not the first I know  
Caught in ebb and flow  
I'm bleeding out, oh you know

Let's search the sky for a while  
You and I collide like two stars for a while  
You and I
