

Demon Dreams

Local H

Had enough of all of that
Microwave your tinfoil hat
And I don't know what there is left to do
Demon dreams of driving fast
Black tar screams and burning gas
And I don't know what there is left to do
And I don't know what there is left to do

Jumping off the overpass
Souls of coal and bones of glass
Jumping off the overpass
With you
Jumping off the overpass

Planet in a stressful state
Losing weight via suicide rates
And I don't know what there is left to do
The people with the best of luck
Always seem to self destruct
And I don't know what there is left to do
Time to take this bus back to the school

Jumping off the overpass
Souls of coal and bones of glass
Jumping off the overpass
With you
Demon dreams of falling fast
Jumping off the overpass
With you

Jumping off the overpass
Souls of coal and bones of glass
Jumping off the overpass
With you
Demon dreams that cut to black
Jumping off the overpass
With you
Welcome to the final blast
