You're lucky - I'm lucky, too.
A quick study - I'll follow you.
A turning table - a true believing fool.
A ton of able - I'll take you back to school.
It's always who you know.
They get you in the show.
You really want to go.
Past your sell by date - you're frozen.
Hey, witchy woman - I'll steal your curly shoes.
Tornado coming - I'll fix your little dog, too.
You wanted in the show.
You really wanna go?
It's always who you know.
Past your sell by date - you're frozen.
The need to be the boss - justifies the cost of each and every loss.
Way past your sell by date - you're frozen.
Get it out of neutral.
Make yourself useful.
