

Weekends

Local Natives

I don't have to know if you'll be there
Because either way you'll be the only thing on my mind
Monday morning until Friday
I'm staying busy so this sleeping dog lies
And all the reasons I have I just can't seem to remember now
Maybe I was wrong

I should've known you're my weakness
I was strong until the weekend

You're my weakness
I was strong until the weekend

I don't have to know who you came with
Because either way I'll be imagining you and I
On the water in Carayas
Staying busy trying to take our sweet time
All the reasons I have I just can't seem to remember now
Maybe I was wrong

I should have known you're my weakness
I was strong until the weekend

You're my weakness
I was strong until the weekend

Something tells me we are done
Something tells me I was wrong
Something (by myself) tells me (maybe now) we are done (water's
still until midnight)
Something (Carayas) tells me (said and done) I was wrong

I should have known you're my weakness
I was strong until the weekend

You're my weakness
I was strong until the weekend
