

Secret Parallel World

Lock Up

Secret parallel world
Where vipers coalesce
The illusionist of eminence
Where opulence infests

Diseased illusion of eminence ...fuck!

Secret parallel world
Human cockroach spawn
The dregs of hades conspire
A breeding ground for liars

It's a breeding ground for liars

Liars - Liars - Liars - Liars!

We can't avoid the scum
Those puppet masters of desperation
Neurotic hybrids and their smiles without apologies

Smiles without apologies

Renounce the sycophants who shake the hand
With sneers of greed
Relinquish their control, take back
Don't sell integrity

Don't sell integrity

Secret parallel world
Where vipers coalesce
The illusionist of eminence
Where opulence infests

Diseased illusion of eminence
