

Void

Lock Up

Go

Burned out sweating cold
Recognition dawn's
Truth seems hard to face
Truth seems hard to face
Weakness sculptures me
Crafting the frailty
Visions of what I was
Laid beneath my feet

Life inside the void
It's life inside the void

Transcendent harmony
Mounting fear in me
Inner strength I need to vanquish adversity

Doubt intensify's
Passive thoughts denied
World feels like a cage
Infectious mental rage...

Life inside the void
It's life inside the void
Life inside the void
It's life inside the void

Spasms of bitterness
Fictitious in design and intent

Shrouds of buried anxiety
Purified fountain of hope

Poisoned heart
Pining for what feels lost
Corrupted heart
The looking glass of non perception

Life inside the void
It's life inside the void
Life inside the void
It's life inside the void

Life inside the void
It's life inside the void
