

Love You Too

Locksley

I remember the morning when I fell in love
Now every evening, I just can't get enough
Right from the start I knew it was true I want you, I need you,
I love you too
Yeah I want you, I need you, I love you too
Now all of these days when we're so far apart
I know that you worry 'cos that's how you are
But darling remember I will always be true
'Cos I want you, I need you, I love you too
Yeah I want you, I need you, love you too
So you see you'll never be alone
Got this feeling I just can't let go
If you leave me, oh would I be blue
'Cos I want you, need you, love you too
Yeah I want you, I need you, I love you too
I want you, need you, love you too
Want you, need you, love you too
