

For Me

Loe Shimmy

Oh, off too much drugs, tryna see a candle light, uh (Fuck you,
Hitech, I hate you)
I can't think straight because my money right, uh
Come take it off, and show me what it's like, uh
Let me see

I'm in the game, I shoot like Jordan with this G23
Don't matter 'cause we disagree, don't mean you up and leave
I buss her down, she rockin' Chrome 'cause she got on her knees
I told 'em I just want him gone before my Z day, please
For me, for me, for me
For me, for me, for me, yeah, for me

Need your love, come stay with me tonight, uh
I can't cope without my drugs 'cause I am not alright
I'ma let you take the wheel tonight, uh
We know what we doin' wrong, but girl, it feels so right, uh
It feels so right, uh, it feels so right
She say I'm in too deep, touch your soul right
Told 'em I'm a star but they ain't see it, how they don't believe it?
Who want war with Zombie?
Too strategic, I can't be defeated
I ran out of love 'cause they misleadin', they just up and leave me
I poured too much Wock' inside my Fanta, now I'm codeine dreamin'

Uh, I'm in the game, I shoot like Jordan with this G23
Don't matter 'cause we disagree, don't mean you up and leave
I buss her down, she rockin' Chrome 'cause she got on her knees
I told 'em I just want him gone before my Z day, please
For me, for me, for me
For me, for me, for me, yeah, for me
