

Leave In

Loe Shimmy

Don't leave me
Don't leave Zombieland, girl, I really love you
If you leave me, I'll kill your nigga after me (I'm sorry, baby girl, ayy, I
'm fucked up)
I'll kill the next one after me (Don't leave me)
Ain't no one after him (You're the best, Mango)
Yeah

Damn I'm so fucked up, my heart, girl, I just wanna get in you, please do not
let this shit get to you
Pussy so good, when we fuckin', I don't wanna pull it out, I just want

Bullet holes all on my body, I lost all my niggas too, damn, L.O.E. Shim, what
the streets did to you?
Bitch, I'm up two hundred-plus, I ain't really got shit to prove
I'm catchin' plays in a Bentley coupe
Pussy boy won't catch me lackin', this Caddy truck bulletproof
Twin F&Ns, they identical
Woke up inside of the trap, I done made me a dub today
Come here, I might spend a ten on you
Them pussies got one time to play with my baby
Got shots like the Navy, if they play, I'ma spin for you
For sure, I ain't make no mistake, I'ma make you my lady
Hope you got them flowers I sent to you

Uh, I put shit straight in the cement, baby girl, you fuckin' with a demon,
uh
I spend couple racks at SSENSE, you won't catch me shoppin' in no Neimans, uh

I'm so tired of this long distance, bring that pussy to me, girl, I'm fiendin'
n'
I'm off Perkies while I'm leanin', can't put down my cup, I'm codeine dreamin'

Tired of fightin' with these demons, I'm just tryna go fill up arenas
I got switches by my nina, slidin' in that big ol' body Bimmer
Uh, junkies can't stop fiendin', I'ma spin his block like Hurricane Katrina,
uh
She just can't stop screamin', I put whipped cream on that pussy, then I eat
it, uh
She just can't stop creamin' when I beat it, standin' up, I'm undefeated, uh
Bitch, I'm high as Venus, all these niggas is my son like they from Phoenix
In the game, ain't on the bleachers, check my creases
When she see me, she gon' get like a Reese's
Just on the road, deliver 'bows just like they pizzas
Flippin' P's while 40 droppin' checks on pieces
Uh, I been waitin' for a while now, want it bad, girl, let me eat it, uh
I been experimentin' with my style, switchin' up my flow, I really mean it,
uh
All she want me do is love her, I'ma touch her soul every time I beat it, uh
Can't express how I been feelin', streets done left me scarred and shit get
serious
