Loft

Woh oh oh oh, your love is magic
Woh oh oh oh, your love is magic, its really magic

Woh oh oh oh, your love is magic
Woh oh oh oh, your love is magic, its really magic
Like a river overflowing, flowing on over me

Love - You know what it is
Wrong - Im not talking show-biz
Life - Is what you got to live
Some try to take, and some try to give but its real
You know what I mean
This love - is it what it seems ?
This time - would it be a dream ?
Life, I like how it feels
Why do you always act so shy ?
Why do you always tell me a lie ?
It hurts so bad when I look in your eyes
It seems as if youre about to cry
I look in the sky and ask myself why
Why dont you give di dreadlocks a try
The love I have will make you high
Dont let it pass you by

Life - You know what it means
Wrong - Im not talking limousines
Love - You know what it is
Its to care, to share, to live and to give in life
You got to be positive
You got to love di life, di life that you live
With no love, youre nothing at all
Youre just another loser with your back on the wall
Fighting to prevent your own downfall but in love
Youre standing tall in life
You need love to live
You got to be a little more constructive
Have an open mind and know when to forgive
Dont waste your time and being negative
In the fathers eyes were relatives
Only love that I am here to give
