

Evergreen

Logan Henderson

Do you think about me
Whenever you're with him?
Are you sick of his games?
Are we more than friends?
Fuck around
Think about trouble we get in

I follow, I follow, I follow my way back to you
I was wrong and I got it confused but
What if tomorrow comes
And you're not where you wanna be?
'Cause I'm just a memory
Our love is magic, time just passes
But we're evergreen
And I wanna know

Do you still think about me?
Do you still think about me?

Do you still feel me?
I know you still feel me
Distance between us keeping me a distant memory

I follow, I follow, I follow my way back to you
I was wrong and I got it confused but
What if tomorrow comes
And you're not where you wanna be?
'Cause I'm just a memory
Our love is magic, time just passes
But we're evergreen
And I wanna know

Do you still think about me?
Do you still think about me?
(Do you still think about me?)
Do you still think about me?
Do you still think about me?
Do you? (Do you still think about me?)
Do you still think about me?
Do you? (Do you still think about me?)

What if tomorrow comes
And you're not where you wanna be?
'Cause I'm just a memory
Our love is magic, time just passes
But we're evergreen
And I wanna know
Do you still think about me?
