

Angel Wings

Logan Michael

So it's finally over and you're gone
Really thought we had something strong
But I guess in the end I was wrong
You said you needed time and space
But it don't look like you needed that
From the pictures I saw of you and him on the internet
And I'm too childish, I'm too scared to commitment
That's what you said when you walked out
And look who's lying now

I wish I coulda saw the signs
That you weren't gonna want me
Woulda made it easier
To watch you leave
I wish I didn't fall so hard
If only I coulda seen
I wasn't loving an angel
You were a devil with angel wings

All is fair in love and war
But this don't seem too fair to me
Cuz you moved on
And I'm still holding on to a memory

I want to say that you're to blame
But I can't help I overthink
Well, it don't matter the outcome's still the same

I wish I coulda saw the signs
That you weren't gonna want me
Woulda made it easier
To watch you leave
I wish I didn't fall so hard
If only I coulda seen
I wasn't loving an angel
You were a devil with angel wings

I'm too childish, I'm too scared to commitment
That's what you said when you walked out
And look who's lying now

I wish I coulda saw the signs
That you weren't gonna want me
Woulda made it easier
To watch you leave
I wish I didn't fall so hard
If only I coulda seen
I wasn't loving an angel
You were a devil with angel wings
