

# Beat Up Chevy

Logan Michael

There's a few stains in my daddy's truck  
From the chocolate milk I spilled  
I was just six  
But he was pissed  
And I sure did hear some hell  
There's a few dents in the dashboard  
Some scratches on the side  
But when my high school crush climbed up  
She sure didn't seem to mind

And we went cruisin' every back road  
Slidin' over real close  
Speedin' by every stop sign  
I had a couple beers, but man, I won't forget the way she looked that night  
She was ridin' up in my passenger seat  
Starin' smilin' at me  
Y'all just wouldn't believe  
We found love in a beat up Chevy

She went off to college  
And I just went to work  
Drove across town everyday  
6 a.m. haulin' dirt  
She came back for a short while  
Stopped by and said hi  
Had a couple laughs  
Had a couple beers  
And I asked if she wanted a ride

And we went cruisin' every back road  
Slidin' over real close  
Speedin' by every stop sign  
I had a couple beers, but man, I won't forget the way she looked that night  
She was ridin' up in my passenger seat  
Starin' smilin' at me  
Y'all just wouldn't believe  
We found love in a beat up Chevy

Well, I still got that old truck  
Parked outside our place  
My daddy may be gone  
But his memory can't be erased  
So one night  
I took her hand  
Brought her outside  
Got her in that passenger seat  
Looked over saw that smile  
And said you wanna take a ride with me

And we went cruisin' every back road  
Slidin' over real close  
Speedin' by every stop sign  
I had a couple beers, but man, I won't forget the way she looked that night  
She was ridin' up in my passenger seat  
Starin' smilin' at me  
Y'all just wouldn't believe  
We found love in a beat up Chevy
