

Found You

Logan Michael

Wasn't even lookin' for somethin' when I opened that door
Didn't even know what was missin' until I was yours
Every step I've ever taken finally made sense
Wasn't even lookin' for somethin', nah ooh

'Til I found you
'Til I found you

Standin' there like nothin' I've ever seen, so beautiful
Hard to tell you how much you mean to me, but I hope you know
Every step I've ever taken led me right here
Didn't really know what I needed, aah ooh

'Til I found you
'Til I found you
Every second
Every day
Wouldn't change a single thing
'Cause I found you

I was broken, no direction
I was rough around the edges
Thought I'd be lonely forever

'Til I found you
'Til I found you
Every second
Every day
Wouldn't change a single thing
'Cause I found you

I found you
Oooh, I found you
Yeah, ooh, I found you
