

HAVE A NICE DAY

Logan Michael

You called me up in the middle of the night
After we just had a fight, sayin' you wanna come over
I caught you red-handed deep in all your lies
Now you're pullin' in the drive tellin' me you want some closure, yeah, right
I know this little game, it always ends the same
But this time, it ain't gonna turn out how you think, nah, baby
Take your pity party somewhere else

'Cause I'm movin' on
Got a cigarette and a double jack and coke
Couple joints waitin' for me over by the stove
I'm not gonna waste my time, right here
So, you don't gotta waste those fake ass tears
Told your friends, told everyone in town, I'm the bad guy
I'm the one that dragged you down
We both know that ain't true
You said you loved me, when you only love you

So, quit throwing that shade
Just stay in your lane
Bitch, have a nice day

You sure had me fooled for a minute
Yeah, girl, I'll admit it, I thought you were the one
Turns out all you wanted was attention
Ohh, I forgot to mention, you're annoyin' when you're drunk
So, pack up, head out, leave town
I don't really care, as long as you're far, far, far away from here

'Cause I'm movin' on
Got a cigarette and a double jack and coke
Couple joints waitin' for me over by the stove
I'm not gonna waste my time right here
So, you don't gotta waste those fake ass tears
Told your friends, told everyone in town, I'm the bad guy
I'm the one that dragged you down
We both know that ain't true
You said you loved me, when you only love you

So, quit throwing that shade
Just stay in your lane
Bitch, have a nice day

'Cause I'm movin' on
Got a cigarette and a double jack and coke
Couple joints waitin' for me over by the stove
I'm not gonna waste my time right here
So, you don't gotta waste those fake ass tears
Told your friends, told everyone in town, I'm the bad guy
I'm the one that dragged you down
We both know that ain't true
You said you loved me, when you only love you

So, quit throwing that shade
Just stay in your lane
Bitch, have a nice day
