

Only Took One

Logan Michael

It took 21 years to buy buy cold beer at the only good bar in t
own

52 Fridays sittin' there tryin' to find someone in the crowd
Took a couple heartbreaks, so many bad days somewhere along way
I lost count
Yeah, there's 7 billion people walkin' 'round

But it only took one look to wonder what your doin' tonight
One laugh, one bad pick-
up line and one dance to know that you're different
Yeah, I knew in an instant
Ahh, that one day we'd say remember the night
We said hello and never goodbye
When I add it all up
It only took one

It took 2 of my friends sayin' come on man you gotta go and mak
e a move
17 steps holdin' my breath wonderin' what I'm gonna say to you
Took a couple wrong songs 'til the right came on and the rest i
s history
Yeah, it felt like eternity when I look back now I see

It only took one look to wonder what your doin' tonight
One laugh, one bad pick-
up line and one dance to know that you're different
Yeah, I knew in an instant
Ahh, that one day we'd say remember the night
We said hello and never goodbye
When I add it all up
It only took one
Yeah, it only took one

It only took one moment to find you now I wanna spend all mine
beside you
There's a million time I almost gave up

But it only took one look to wonder what your doin' tonight
One laugh, one bad pick-
up line and one dance to know that you're different
Yeah, I knew in an instant
Ahh, that one day we'd say remember the night
We said hello and never goodbye
When I add it all up
It only took one

Yeah, it only took one
Tisknouz písničky-akordy.cz
Yeah, it only took one
