

# Right Now

Logan Michael

Left in a cloud of dust  
Right when the sun was risin'  
She finally had enough  
We've been up all night and gettin' tired of tryin', tryin' to make it work  
I guess I got what I deserve

Right now  
I'm wishin' I could take back every word  
Right now  
It's killin' me knowin' how bad it hurts you  
Right now  
I can't believe I watched you walk right out  
I don't care about bein' right now  
Mmm, bein' right now

I knew I had your heart  
I couldn't help but break it  
I knew that I was wrong  
Why couldn't I just say it  
I finally sobered up  
Wish I wouldn't have wasted, wasted my chance to be with a girl like you

Right now  
I'm wishin' I could take back every word

Right now  
It's killin' me knowin' how bad it hurts you  
Right now  
I can't believe I watched you walk right out  
I don't care about bein' right now  
Mmm, bein' right now

Next time I won't ever talk like that  
Next time it won't ever get that bad  
'Cause right now  
Ooh, right now, mmm

Right now  
I'm wishin' I could take back every word  
Right now  
It's killin' me knowin' how it bad hurts you  
Right now  
I can't believe I watched you walk right out  
I don't care about bein' right now  
Mmm, bein' right now

Right now  
I can't believe I watched you walk right out  
I don't care about bein' right now
