

Wasted Time

Logan Michael

One step forward
Don't know if I can get out that door
It hurts so much
I can't take this shit anymore
Long shifts, no sleep
Tryna drown out your memory
When I think of you
It makes it hard to breathe

I say that I'm fine
But it's always a lie
Cause I haven't been the same without you by my side
I don't know what went wrong
But I can't stay strong
Cause you never told me why you had to say goodbye
Oooh, Did you ever love me?
Or was it all just wasted time?

New book, new page
But it just don't feel the same
Cause all I want is to here you say my name (say my name)
I was a better man
'Fore you walked out of my life
The way you did me wrong should be a crime

I say that I'm fine
But it's always a lie
Cause I haven't been the same without you by my side
I don't know what went wrong
But I can't stay strong
Cause you never told me why you had to say goodbye
Oooh, Did you ever love me?
Or was it all just wasted time?

I say that I'm fine
But it's always a lie
Cause I haven't been the same without you by my side
I don't know what went wrong
But I can't stay strong
Cause you never told me why you had to say goodbye
Oooh, Did you ever love me?
Or was it all just wasted time?
