

# All Time

Logan Mize

Well the first time it was a summer camp  
I heart my heart in my ear  
She was licking a stamp  
And the third time  
It was my neighbor's babysitter  
In a teeny weenie bikini  
Poppin' out of the river

Oh the seventh time was love  
We were finally at my house when nobody else was  
Oh but good's as good as it gets  
Until you finally find the best

Yeah you're my all time, you win  
At the top of the top ten  
All time solid gold  
You take the cake it ain't even close  
You're my straight up favorite, no lie  
Don't have to think about it  
Oh yeah you're my all time, you

There was that one time with that girl in l.a.  
She got us into every party but it wasn't my thing  
And then that other time she was a little bit older  
She taught me things about things  
And just like that it was over

Oh that's when my heart took a hit  
The next one broke me hard and I'm glad that she did  
'Cause oh that's when you came around  
And put your hands on me baby  
Baby hands down

Yeah you're my all time, you win  
At the top of the top ten  
All time solid gold  
You take the cake it ain't even close  
You're my straight up favorite, no lie  
Don't have to think about it  
Oh yeah you're my all time, you

Day time, night time, you're my favorite past time  
Might not have been my first but you're gonna be my last time  
Day time, night time, you're my favorite past time  
Might not have been my first but you're gonna be my last time and

All time, you win  
At the top of the top ten  
All time solid gold  
You take the cake it ain't even close  
You're my straight up favorite, no lie  
Don't have to think about it  
Oh yeah you're my all time, you  
All time, you
