

# American Dream

Logan Mize

There's a fire in our heart  
A burning in our soul  
Still freedom ringing in this bell that tolls

There's a need to come together  
A time to take a stand  
The revolution starts right now  
In this great land

It's still alive  
Ooh, this American dream  
It's still alive  
Ooh, this American dream

From the prairies to the mountains  
From the rivers to the seas  
There's a hopeful wind coming for you and me

There's a need to come together  
A time to take a stand  
The revolution starts right now  
In this great land

It's still alive  
Ooh, this American dream  
It's still alive  
Ooh, this American dream

There's a fire in our heart  
A burning in our soul  
Still freedom ringing in this bell that tolls

There's a need to come together  
A time to take a stand  
The revolution starts right now  
In this great land

It's still alive  
Ooh, this American dream  
It's still alive  
Ooh, this American dream  
Ooh, this American dream
