

Another Right Now

Logan Mize

You were looking in the mirror
Fixing your hair up right
Baby crying in the background
Maybe we should just stay in tonight

Bills piled up on the table
'Cause real life don't stop
I had a moment out of nowhere
Baby, would you look at everything we got

I wanna take a picture with my mind
Drink it up like wine
'Cause the years keep rolling
And the kids keep growing, and I
I know this snapshot that we're in
Will never look like this again
'Cause the world keeps spinning and we're caught up in it, so

Now let's just try to tune the noise out
Hit the porch and just wind down
Tomorrow's on its way
But we'll never get another right now

We'll never get another first year
In this fixer up house
We'll never get another first scratch
On the new paint it took a week to pick out
How did we get this lucky
To get this life we've been given
Maybe there's some things we want, but
There ain't nothing missing

I wanna take a picture with my mind
Drink it up like wine
'Cause the years keep rolling
And the kids keep growing, and I
I know this snapshot that we're in
Will never look like this again
'Cause the world keeps spinning and we're caught up in it, so
Now let's just try to tune the noise out
Hit the porch and just wind down
Tomorrow's on its way
But we'll never get another right now

Now let's just try to tune the noise out
Hit the porch and just wind down
Tomorrow's on its way

I wanna take a picture with my mind
Drink it up like wine
'Cause the years keep rolling and the kids keep growing, and I
I know this snapshot that we're in
Will never look like this again
'Cause the world keeps spinning and we're caught up in it, so

Let's just try to tune the noise out
Hit the porch and just wind down

Tomorrow's on its way
And we'll never get another right now
We'll never get another right now
