

Bands Make Her Dance

Logan Mize

Friday night moves slow in a dust bowl town
Pick her up take a couple laps around
Little texaco small talk
Drinks are cheaper in the parking lot
Marquee sign says 8 pm so the band won't start till 10
That's when we'll walk in

Cause bands make her dance
When she starts dancing and my whole world stands still
Might be downtown in the neon at some bar
Flatbed at a rodeo in the headlights of my car
Shining like a star
Silver bullet in her hand
Yeah man, bands make her dance
Bands make her dance

Purple sunsets
Yellow daises make her smile
Still magnolias always makes her cry
You oughta see her when a guitar
And a kick drum and a groove starts
What makes a rock, what makes a rose, what makes the boys all go
Yeah, cause they all know

Bands make her dance
When she starts dancing and my whole world stands still
Might be downtown in the neon at some bar
Flatbed at a rodeo in the headlights of my car
Shining like a star
Silver bullet in her hand
Yeah man, bands make her dance
Bands make her dance

Yeah, bands make her dance
When she starts dancing and my whole world stands still

Bands make her dance
When she starts dancing and my whole world stands still
Might be downtown in the neon at some bar
Flatbed at a rodeo in the headlights of my car
Shining like a star
Silver bullet in her hand
Yeah man, bands make her dance
Bands make her dance
Bands make her dance
Bands make her dance

(You oughta see her when a guitar
And a kick drum and a groove starts
What makes a rock, what makes a rose, what makes the boys all go...)
