

Best Friends

Logan Mize

I had a dream just the other night
You were sitting there by my side
Laughing along
Like nothing was wrong

You had a look in your pretty eyes
Took me back to a place in time
When you weren't so mad
And you looked so sad

And there was no cares
And there was no tears
It was just you and me

Flying down a road
Shining in the sun
No place we had to go
Like bandits on the run
We were born to be free of this pain
Yeah we chased it all away
Like a California breeze
Coming down the coast
You were giving me a smile
The kind I love the most
Left your kiss on my lips
Yeah how could I forget
There was a time
When you and I
Don't you remember when we were best friends

Waking up was the hardest part
I was praying for a brand new start
You can damn well bet
I have regrets

But I'm seeing you in another light
Wish you coulda saw it all last night
I was holding your hand
Yeah I was your man

And there was no cares
And there was no tears
It was just you and me

Flying down a road
Shining in the sun
No place we had to go
Like bandits on the run
We were born to be free of this pain
Yeah we chased it all away
Like a California breeze
Coming down the coast
You were giving me a smile
The kind I love the most
Left your kiss on my lips
Yeah how could I forget
There was a time

When you and I
Don't you remember when we were best friends

My love for you is forever
When I said for worse or for better
I meant every word
Oh yes I did
And there was a time
When you and I
Don't you remember when we were best friends
