# Big City

**Logan Mize**

Can't wait til its time to pick you up
I can see you putting on your dress
Got your hair pulled back and the radio on
Singing along to your favorite song

There's a friday night feeling in the air
Streetlights coming on everywhere
Meet you at the door and I see your face
And you take my breath away

You're like a night on the town, I wanna stay out
You're like a skyline view and when I look down
I get a little bit high, a little shook up
I like your downtown eyes, the way they light up
I wanna go get lost down every side street
Take you for a ride and feel your heartbeat
I feel alive whenever you're with me
The night is young and love's a big city

We could find a little dive bar out of the way
Cruise the clubs up broadway
Where the beat goes on and it don't stop
We could get a drink on a rooftop

Doesn't matter as long as I'm close to you
We can do whatever you wanna do
Hold on tight when the lights change
And you take my breath away

You're like a night on the town, I wanna stay out
You're like a skyline view and when I look down
I get a little bit high, a little shook up
I like your downtown eyes, the way they light up
I wanna go get lost down every side street
Take you for a ride and feel your heartbeat
I feel alive whenever you're with me
The night is young and love's a big city

You're like a night on the town, I wanna stay out
You're like a skyline view and when I look down
I get a little bit high, a little shook up
I like your downtown eyes, the way they light up
I wanna go get lost down every side street
Take you for a ride and feel your heartbeat
I feel alive whenever you're with me
The night is young and love's a big city
