

Catch A Fish

Logan Mize

Hey dad remember me
We ain't talked like this since I turned 18
But the lake's like glass
Before it gets any hotter
Thought you might wanna drop a line in the water with me

Hey dad last time I called
I was full of pissed off and alcohol
There's a blue bird sky at 68
They say there ain't a chance of rain at all

Let that evinrude sing us a song
We don't have to talk about right or wrong
Everybody's got their own way to find forgiveness
You got yours, I got mine
They're both the same so I think it's time
To catch a fish

I know I left this town in a blaze of glory
I see it now you were always rooting for me
So let's go open that can of worms
That makes us smile
Don't need words to tell the story

Let that evinrude sing us a song
We don't have to talk about right or wrong
Everybody's got their own way to find forgiveness
You got yours, I got mine
They're both the same so I think it's time
To catch a fish

Let it go
Watch that red and white
Bobber float away

Let that evinrude sing us a song
We don't have to talk about right or wrong
Get caught up on all the time we've missed
So let's drink a few and watch the sun go down
Sometimes I'm sorry doesn't make a sound
Everybody's got their own way to find forgiveness
You got yours, I got mine
I'm just like you so I think it's time
To catch a fish

Yeah so let's go catch a fish
