

Get 'Em Together

Logan Mize

Your sundress, my blue jeans
My hand in your pocket by your school ring
Your blue eyes, my old ford
My barefeet tapping on the dashboard
My paycheck, your friday night
Bring your wild side, I'll bring mine

Let's get 'em together
Let's do it tonight
I got the want to if you got the time
Sounds good to me, baby what do you say
Bring them lips on over my way
My rough and tough, your soft and sweet
My heart, your heart, they need to meet
Like a needle in the groove on your favorite record
Let's get 'em together

Your red wine, my whiskey
Let's get a little tailgate tipsy
Your ain't even trying kind of pretty
My farm's fifty miles from the city

Let's get 'em together
Let's do it tonight
I got the want to if you got the time
Sounds good to me, baby what do you say
Bring them lips on over my way
My rough and tough, your soft and sweet
My heart, your heart, they need to meet
Like a needle in the groove on your favorite record
Let's get 'em together

Like Bonnie and Clyde
Like Johnny and June
You're stealing my heart like Daisy Duke
I'll be Carrie
You'll be the Bandit
Damn girl, I can't stand it

Let's get 'em together
Let's do it tonight
I got the want to if you got the time
Sounds good to me, baby what do you say
Bring them lips on over my way
Let's get 'em together
Let's do it tonight
I got the want to if you got the time
Sounds good to me, baby what do you say
Bring them lips on over my way
My rough and tough, your soft and sweet
My heart, your heart, they need to meet
Like a needle in the groove on your favorite record
Let's get 'em together
Let's get 'em together
Let's get 'em together
