

# I Give In

Logan Mize

I took a little guff from all the guys  
when I got up to leave on friday night  
just two beers in  
I threw that pack of smokes  
underneath the seat  
bit off a stick of gum  
and fired up my truck  
with a little grin

I swore I wouldn't act like this  
more than anything, I couldn't resist  
but girl, I just can't fight it anymore

There ain't no dust settlin' in the ruts  
I'm keepin' a trail torn up  
from me to you to work and back again  
There ain't no kiss like your lips  
you set my fingertips on fire  
from one soft touch of your skin  
Honey, I give in

I used to curse this little town  
and dream about  
the day that I'd punch out, never look back  
Just one little look from you  
everything feels so brand new  
Can't wait to stay right where I'm at

I can't remember who I was before  
Don't know what I was fightin' it for  
I'm pullin' back the shade and  
lettin' your love shine in

There ain't no dust settlin' in the ruts  
I'm keepin' a trail torn up  
from me to you to work and back again  
There ain't no kiss like your lips  
you set my fingertips on fire  
from one soft touch of your skin  
Honey, I give in

And I just can't win  
If that's what this means,  
I don't ever want to again

There ain't no dust settlin' in the ruts  
I'm keepin' a trail torn up  
from me to you to work and back again  
There ain't no kiss like your lips  
you set my fingertips on fire  
from one soft touch of your skin  
Honey, I give in
