

# If You're Up

Logan Mize

I know it's late I bet you're probably sleeping  
Are you tossing in your king-sized bed?  
Are you thinking 'bout the words we said?  
Last time I saw you it was last call it was all you  
You said you, you never got over me  
Well alright, do you still feel that tonight?

If you're up now baby I'm down  
You're the only thing I can think about  
I can't turn out the lights  
'Til I see you tonight  
If you're up to no good too  
We could burn it all the way down like we used to  
Say you're sleeping alone  
Baby, pick up the phone  
If you're up I'm down

I can't watch the Friday neon fading  
Without fading back into you  
No matter what I do  
I can't taste a single sip of whiskey  
Without tasting your every kiss  
Baby, call me

If you're up now baby I'm down  
You're the only thing I can think about  
I can't turn out the lights  
'Til I see you tonight  
If you're up to no good too  
We could burn it all the way down like we used to  
Say you're sleeping alone  
Baby, pick up the phone  
If you're up I'm down  
If you're up I'm down

I know it's late I bet you're probably sleeping

If you're up now baby I'm down  
You're the only thing I can think about  
I can't turn out the lights  
'Til I see you tonight  
If you're up to no good too  
We could burn it all the way down like we used to  
Say you're sleeping alone  
Baby, pick up the phone  
If you're up I'm down  
If you're up I'm down  
If you're up I'm down  
If you're up I'm down
