

# It's About Time

Logan Mize

When I'm out here I think of heaven  
Let that high plains prairie gold keep rolling in  
And someday when I'm gone I hope right now  
There's a place I get to go again

When I'm with her it feels like flying  
And thirty thousand feet above that fool I would've been  
There comes a peace of mind when you find a lover  
A peace at heart when you find a friend

And it fills my soul  
Like a country road  
Long way around  
But I made it home  
Found a reason  
And the words to rhyme  
Oh, I finally feel just like myself  
And it's about time

It's about time I let go of a few things  
It's plain to see now I was never in control  
So long to all that come of age  
Anger I held in  
I'm living free as the wind blows

And it fills my soul  
Like a country road  
Long way around  
But I made it home  
Found a reason  
And the words to rhyme  
Oh, I finally feel just like myself  
It's about time

And how ya spend it  
And how ya live it  
And how ya give it  
Oh, I wanna give it to you

About time that river opened wide  
About time the stars lined up just right

And it fills my soul  
Like a country road  
Long way around  
Oh, but we made it home  
Found a reason  
And the words to rhyme  
Oh, I finally feel just like myself  
And what goods a front porch sunset by yourself  
It's about time

Oh, it's about time  
It's about time
