

Just Keep Breathing

Logan Mize

The hardest part is over now
Saying goodbye to someone
Saying hello to something new
It feels too soon to figure out
The first step, much less
How the hell you gonna make it through

All the what if's and the why's
Been to hell and back
It's a bumpy ride
Ain't much you can do but hold on tight

Just keep breathing
You'll have proof with all your scars
Time can heal a broken heart
I know it's hard
To leave the pieces
Give it space and give it time
Who knows what you're gonna find
Keep your eyes open to the light
Something's gonna come back around
Dust is gonna settle on the solid ground
You've come too far to turn back now
Just keep breathing
Just keep breathing

It doesn't have to all make sense
You've played it over, run it back
And mixed it up inside your mind
The coulda, woulda, shoulda been's
Will drag you down all day
Turn around and keep you up all night
It's alright

Just keep breathing
You'll have proof with all your scars
Time can heal a broken heart
I know it's hard
To leave the pieces
Give it space and give it time
Who knows what you're gonna find
Keep your eyes open to the light
Something's gonna come back around
Dust is gonna settle on the solid ground
You've come too far to turn back now
Just keep breathing
Just keep breathing

Just keep breathing
You'll have proof with all your scars
Time can heal a broken heart
I know it's hard
To leave the pieces
Give it space and give it time
Who knows what you're gonna find
Keep your eyes open to the light
Something's gonna come back around

Dust is gonna settle on the solid ground
You've come too far to give up now
Just keep breathing
Just keep breathing
