

Life's A Party

Logan Mize

Sixteen growing up, twenty one showing up
Yeager bomb blowing up throwing it down
July tangled up, star spangled up
Get your girl wrangled up take her to town
Right here right on
Got a stone cold radio song
Good times good friends
Crank it up when the long week ends the world is a trip and life is a party
Rock star booty twang hip hop marley
Jeeprack chevystack, back in black harley
The world is a trip and life is a party
It's a bottle rocket saturday night
State road running with a broken headlight
Feelin' effin better than heaven
The world is a trip and life is a party

Haybale hangin' out twin ten bangin' out
Aj singin 'bout a hoocheecoochee
The way she's drinkin' that skee got me thinkin' that
She's bout to shoot that arrow right through me

The world is a trip and life is a party
Rock star booty twang hip hop marley
Jeeprack chevystack, back in black harley
The world is a trip and life is a party
It's a bottle rocket saturday night
State road running with a broken headlight
Feelin' effin better than heaven
The world is a trip and life is a party

Right here right on
Got a stone cold radio song
Good times good friends
Crank it up when the long week ends

The world is a trip and life is a party
Rock star booty twang hip hop marley
Jeeprack chevystack, back in black harley
The world is a trip and life is a party
It's a bottle rocket saturday night
State road running with a broken headlight
Feelin' effin better than heaven
The world is a trip and life is a party

Life is a party
Life is a party
Life is a party
