

Nothing With You

Logan Mize

I don't miss doin' anything with you
Birthdays, holidays, champagne for two
Gettin' all dressed up and dancin' down 16th avenue
I don't miss doin' anything with you

It ain't the picture-perfect moments
I flip through on my phone
No, it ain't the things I thought I'd miss the most

It's the midnight
Head on my shoulder in the TV light
Counting the miles on a long drive
Listenin' to one song a million times
Changin' all the lines
You and I
Doin' dishes in the kitchen and your hand touches mine
Sleeping in late while the sun shines
Staying there all afternoon
Hey, I miss doin' nothing with you
Hey, I miss doin' nothing with you

We saw the sunrise in Joshua Tree
We felt the sand on Myrtle Beach
Them northern lights were shining and we were shining too
But I don't miss doin' anything with you

It ain't the picture-perfect moments
That got me losing sleep
No, it's all the ones that happen in between

It's the midnight
Head on my shoulder in the TV light
Counting the miles on a long drive
Listenin' to one song a million times
Changing all the lines
You and I
Doin' dishes in the kitchen and your hand touches mine
Sleeping in late while the sun shines
Staying there all afternoon
I miss doin' nothing with you
I miss doin' nothing with you

I miss doin' nothing with you
I miss doin' nothing with you

Now we had so much more to do
But I don't miss doin' anything with you

It's the midnight
Head on my shoulder in the TV light
Counting the miles on a long drive
Listening to one song a million times
Changing all the lines
You and I
Doin' dishes in the kitchen and your hand touches mine
Sleeping in late while the sun shines
Staying there all afternoon

I miss doin' nothing with you
I miss doin' nothing with you

Hey! I miss doin' nothing with you
Hey! I miss doin' nothing with you
