

## Practice Swing

Logan Mize

It's easy to play pretend  
When you're a wannabe know it all rebel kid  
Driving a second-hand pick-up truck  
That you bought wrecked  
Friday night football lights  
Saturday night keg party dreams  
She took a little piece of you when  
She gave back your class ring

It wasn't the real thing  
Just a practice swing

Life was just a new song blaring on the radio  
Fake ID that worked at the Amoco  
Wasn't real money, borrowed time  
First base, first love up all night  
Bending the rules, playing the game  
White lies, little sins fade away  
Everything about seventeen  
Is just a practice swing

Overnight it all changed  
All the faces and all the names  
Everybody started keeping score  
In a rat race for a little more  
But in my head I'm still that kid  
Fighting this dog  
Ain't got no quit

Man I'd love to do it all again  
Like I did way back when

Life was just a new song blaring on the radio  
Fake ID that worked at the Amoco  
Wasn't real money, borrowed time  
First base, first love up all night  
Bending the rules, playing the game  
White lies, little sins fade away  
Everything about seventeen  
Is just a practice swing

Life was just a new song blaring on the radio  
Fake ID that worked at the Amoco  
Wasn't real money, borrowed time  
First base, first love up all night  
Bending the rules, playing the game  
White lies, little sins fade away  
Everything about seventeen  
Is just a practice swing

Is just a practice swing  
Just a practice swing  
Just a practice swing
