

# Buried Alive

Logic

Tell me how you feel  
Tell me how you feel  
I feel like the grass is green  
And everything I do is unseen  
But I know that's just on my mind  
I know everything is just in my mind

You really wanna be famous?  
Do you really wanna be a superstar?  
Do you really wanna get dangerous?  
Do you know what groupies are?  
All bitches out here be shamus  
And I really wonder where their parents are  
Look around everything changes  
It feels like I've been buried alive

Buried alive

Everything happens for a reason  
Happens for a reason  
People only end their life in seasons

You can make a life  
But you can't make a living  
You can make it work  
But that still ain't  
Livin' a life this ain't real dog  
Every night like this I feel so dead roll collision  
His head on my vision  
If I ain't wrong  
I've been here so very long  
Right here in this very song

Look around everything changes  
Seems like everybody's just strangers  
Why everybody wanna be famous?  
I'm so OCD if they notice me  
I might jump out the grave so they know it's me  
Man everybody want this shit for free  
Hand out palm up when they get to me  
And my mind know I never let it get to me  
Everybody got a time will it get to me  
V's up motherfucker that's victory  
Tell me why what I'm doing  
Ain't shit to me, damn?

Buried alive, buried alive  
Will I survive?  
I got to know  
I got to know  
It feels like I've been buried alive  
Buried alive

Tell me how you feel  
Tell me how you feel  
I feel like the grass is green  
And everything I do is unseen

But I know that's just on my mind  
I know everything is just in my mind

You really wanna be famous?  
Do you really wanna be a superstar?  
Do you really wanna get dangerous?  
Do you know what groupies are?  
All bitches out here be shamus  
And I really wonder where their parents are  
Look around everything changes  
It feels like I've been buried alive  
Let it be  
I feel like I'm killing my dreams  
Listen up now  
Why these other motherfuckers think that I made it?  
God damn, bring it back now  
Going up like a rap now, rap now  
Pull me in a map now  
Nobody never back down  
Just take my time  
I just take my time  
I know  
I'mma get it like this  
I know that I will take my time  
That will be the image inside my mind  
I know I'll keep going  
Tell me I won't  
But I already know it  
I know I'm gonna rise

Buried alive, buried alive  
Will I survive?  
I got to know  
I got to know  
It feels like I've been buried alive  
Buried alive

Tell me how you feel  
Tell me how you feel  
I feel like the grass is green  
And everything I do is unseen  
But I know that's just on my mind  
I know everything is just in my mind

Let it breathe
