Logic

Yeah, yeah, SlayDro!  
This that J Dilla right here  
Badu, Indica Badu  
Yeah, that's right...

Riding 'round the city with my homies, blowing trees  
Wavy like the Seven Seas, living life, let me get it right  
Let me give it a minute to get up in it like a beautiful independent woman t  
hat's finna make you wait to smash  
Come now, let me count this cash  
Come now, let me sip this flask  
Pockets fat like shawty ass  
Jump in the whip, gotta get this gas  
Put that shit in drive, I'm live like ammunition  
No permission needed, I proceeded to accelerate  
Had days with hella hate, but gotta let that anger migrate  
All this shit that's on my plate  
That food for thought that can't be bought  
But only taught, and on the real, know

I can't get much higher, been smoking that fire  
Riding 'round the city with my homies that know me  
Know that I can't get much higher, word to my supplier  
While you break it, roll it, light it, use that fire, ignite it  
I can't get much higher, been smoking that fire  
Riding 'round the city with my homies that know me  
Know that I can't get much higher, word to my supplier  
While you break it, roll it, light it, use that fire, ignite it  
I can't get much higher

Yeah, yeah, yeah, yeah  
Nigga, like we smoking all weekend  
And I roll and smoke when I'm drinkin'  
Tell them open that door but don't peek in  
We be havin' a OG Kush meetin'  
If we smokin' that dope, it's a reason  
Eyes so low from the chiefin'  
I be getting high when I wake up  
And roll me one more 'fore I'm sleeping  
Man, I be smoking so good that I be forgetting the past  
It don't even come to my house  
If it ain't wrapped up in a turkey bag  
We roll up the herb and laugh, kick back, blow a zip  
Take it on a plane, know I smoke the same when I'm on a trip  
Nigga like me always got weed on 'em (got weed on 'em)  
Try to tell me that she don't smoke, later on she joinin'  
Ain't no point, no I'm back, keep going in  
You been rolling with cats, who boring  
I be bringing them stacks enormous  
Section always in the back important  
Bad bitch gorgeous, pack imported

I can't get much higher, been smoking that fire  
Riding 'round the city with my homies that know me  
Know that I can't get much higher, word to my supplier  
While you break it, roll it, light it, use that fire, ignite it  
I can't get much higher, been smoking that fire

Riding 'round the city with my homies that know me  
Know that I can't get much higher, word to my supplier  
While you break it, roll it, light it, use that fire, ignite it  
I can't get much higher

Uh, yeah, I'm finna get up in the feeling  
Independent feeling like a boss  
Roll a little something, smoke a little something  
Kick back and then floss  
Chiefin' that Indica in the cut, tell my anxiety to get lost  
Fuck a pill, only numb the pain  
Man, you know how much that shit cost?  
I ain't talking 'bout your pocket  
No, I am only talking about the mind  
When the cannabis combine with the brain  
It be like everything you see, it seem to shine  
Smoking that Golden State, everything going great  
Got a lot on my plate, not a single complaint  
Stack of money in the bank  
This that RattPack and that Taylor Gang  
They know the face and they know the name  
I'm a married man with a bad wife  
Never fuck around unless it's Mary Jane  
Come play the game, honestly never the same  
Just like my flow, got one for every occasion  
Living the life so my life is amazing, woo

I can't get much higher, been smoking that fire  
Riding 'round the city with my homies that know me  
Know that I can't get much higher, word to my supplier  
While you break it, roll it, light it, use that fire, ignite it  
I can't get much higher, been smoking that fire
