

## Lemon Drop

Logic

Come get me, but don't hit me  
I smoke weed, so I'm trippy  
Get litty, get gritty  
Rick Sanchez, get schwifty

Who gonna come to come to get me?  
Who gonna break me out, set be free?  
Who gonna come to come to get me?  
Who gonna come to come to get me? (Woo)  
I'm sexy, I'm gifted  
I'm too high to get lifted  
You're racist, you're evil  
You're a danger to my people

My vision is faded, my brain has calculated  
How many licks to lick your lemon drop?  
How many licks to lick your drop, drop?  
Wait, wait for me to set you free  
Wait, wait for me to set you free

You know I'm tryna make it but I only got time  
Never graduated so I never had a prom  
Alcoholic so I never really had a mom  
Don't feel bad 'cause I turned out fine  
If you really 'bout it come and step up to the line  
I'm a bad mama jama, now watch me shine  
Only 27, I'm ahead of my prime  
If it's illegal to kill the pussy, book me with a crime  
My spaceship is empty  
Dolla, dolla bill, y'all, finally got plenty  
Here's a glass, so shut the fuck up, it's venti  
Why's everybody so uptight this century?  
If you a cry baby, bitch, I'ma fuck yo' mom  
Good thing for me that the cougar is a dime  
Don't believe in Jesus, but I think this is the time  
I'ma have to come back and kill it one time

My vision is faded, my brain has calculated  
How many licks to lick your lemon drop?  
How many licks to lick your drop, drop?  
Wait, wait for me to set you free  
Wait, wait for me to set you free
