

My Chain

Logic

My chain, my chain
Don't you like my chain, mayne?
Life of a don, chain just glowin'
My chain, my chain
Don't you like my chain, mayne?
I'm coming in the club with that fresh shit on
My chain, my chain
Don't you like my chain, mayne?
Life of a don, chain just glowin'
My chain, my chain
Don't you like my chain, mayne?
I'm coming in the club with that fresh shit on

Yeah, me and my team used to dream about
The future but now we be rollin' everywhere we goin'
Our cards never showin' the moment I'm flowin' we livin' it right now
Long way from the ghetto, pull strings like Gepetto
Poppin' that fine wine, look at the way my chain shine
Soon as I change my state of mind, from a lazy ass boy
To a man that's on his grind so answer my question
Did I even mention? The fact that I'm livin' the life that I wanted
I keep a hunnid, got cash in abundance, that's bills by the hunnid
I've said it and done it, you know that I run it while everyone else
Say it, then plummmit now, yeah you know I run it now
While the whole world wonder how
My chain shine nice
But I am not defined by the money, not defined by the ice
What defines me. Let me tell you what defines me
Is the heart and the effort I give in every letter in which I write for you
And if you ignorant closed minded motherfuckers do not like it
It's not right for you. No, it's not right for you

My chain, my chain
Don't you like my chain, mayne?
Life of a don, chain just glowin'
My chain, my chain
Don't you like my chain, mayne?
I'm coming in the club with that fresh shit on
My chain, my chain
Don't you like my chain, mayne?
Life of a don, chain just glowin'
My chain, my chain
Don't you like my chain, mayne?
I'm coming in the club with that fresh shit on

I'm swimming in women like Young Sinatra 1 & 2
With the RattPack on my back there's really no telling what we finna do
If a shorty in my eye, then yes baby girl I be coming for you
Nice cars, nice clothes, hotel suites after the shows
So simplistic, never materialistic, but we do like compliments
Why, because theses diamonds are accomplishments
Food stamps, welfare, medicare and section 8 to
Loui V, smoking tree, and steak up on my dinner plate
And you wonder why us rappers floss... because for once
We can finally afford the cost
I once was the worker, now I'm the boss
See my chain is an accomplishment. I call these diamonds milestones

It's hard call for help with no dial tone
But, now I'm buying whips with no motherfucking miles on em'
But I don't blow my money, I give it back to people
Why these rappers spend money on blowing, stop acting equal
But I've been real since the fucking prequel
So the next time you that you looking at my chain
What you really see is 23 long years of pain
With nothing to loose and everything to gain
Cause the world is divided, but we are the same
And I'm getting that money, cause bitches they love me
And this is the life I'm live, ain't it funny but
I'm a keep rising, til ya'll realizing, that so much is waiting over the horizon
Cause I've seen the days and yes also the night
So that means I've seen the darkness as well as the light
And that's the very same light
That's the very same light, that let's my chain shine bright
Said that's the very same light, that let my chain shine bright
Soooooo...

My chain, my chain
Don't you like my chain, mayne?
Life of a don, chain just glowin'
My chain, my chain
Don't you like my chain, mayne?
I'm coming in the club with that fresh shit on
My chain, my chain
Don't you like my chain, mayne?
Life of a don, chain just glowin'
My chain, my chain
Don't you like my chain, mayne?
I'm coming in the club with that fresh shit on
