

# Tetris

Logic

Yeah  
I could-  
Rest in peace J Dilla  
I could-

I could give a fuck about the metrics  
Roll up in a Beamer, Bentley, Lexus  
Logic stay connected on the block, bitch I'm Tetris  
Snatch your necklace, Dilla beats got me reckless

Even if you knew the whole clan, couldn't protect this  
Don't deflect it, you motherfuckers is defective  
So get back on that assembly line  
I'm schooling these emcees with assembly rhymes  
I'll be goated by the end of my time  
More tracks than Amtrak by the end of the line  
I'm harder to find, Maryland state of mind  
From the womb to the prime  
In my room with a pen and a pad and mad lines  
Like a theme park  
My life is full of action like when the scene start  
Think I ain't the illest? You trippin' like when the plane depart  
You know I been killin' the game from the start  
I'm the reason your kids afraid of the dark  
I leave you bankrupt for real  
Can't pay your light bill, how you feel?  
Stupid motherfucker, oh yeah you got a deal  
But you spent your whole advance on a chain  
I invested mine in crypto, and now I'm sailin' out to Spain  
Hah, my yacht three-hundred feet  
Everything that I retained all came from cuttin' teeth  
Hanzo flow, I'm so sharp I cut the sheet  
Good grief, only undercover if I'm cuttin' under sheets  
Know my whole style, check the profile  
Married man, I ain't fuckin' with bitches, these hoes wild  
So in it that I'm infinite, I'm so in it that I'm infinite, yeah  
So what's the deal now? You know we keep it real now  
Strapped to the T, I will grab the  
What's the, what's the deal now? You know we keep it real now  
Strapped to the T, I will grab the steel now

Fuck the metrics  
Roll up in a Beamer, Bentley, Lexus  
Logic stay connected on the block, bitch I'm Tetris  
Snatch your necklace, Dilla beats got me reckless  
What's up
