

The Dream

Logic

Uh uh uh, yeah, V's up mafucker what it is
Visionary we're takin over the whole biz
All over your city like we in the blow biz
Never go hollywood even though we in show biz
Baby girl, I just wanna give it to you like you never had it
When it comes to music I'm an addict
And killa, ain't anotha illa for relida that's where the dilla
Rest in peace the best were beats
And I thought I'd bring da heat like five oh
Puttin records right when I'm in cabo
Logic got more verses than the bible
I'm liable to murder anybody that pretend to be a contender
There's no better than us, the second we bust they guts, you'll
trust but we get it in
Cutting records like I give a damn, you can kill me but my musi
c it will live again
Ratt pack, six months on a track
Remedy on a visual, so you know it's a rap
I'm murder, bringing shit that you ain't never heard of
I'm goin in raw no contraception, red dead redemption, no need
to mention
I'm a, murder to beat, homie word on the street, you a bitch
I plan to get rich cause my mix tape sound like an album, your
mix tape sound like shit
I don't give a damn, I am not cocky, I am balboa even when the
road is rocky
Chillin "al moco", ya you know I gotta go, west deer park where
I started ten years ago
Every time I see a hata they wanna get physical, why? cause whe
n a girl see me we get physical
When I cuss a woman, I'm a mac you're a dell, pick up the mic a
nd I shall prevail

When the tide is high and the lights are low, you feel like the
re's no where to go
And when the stars align and the sky explodes, I'll be there, o
f this I know
