

# Upgrade

Logic

Aye, let me just rap  
I've upgraded while they've waited  
Will they love it, will they hate it  
Never fade it I evade it  
Cause I never really want to complicate it  
Think I've made it, yes I did  
I'm giving them bars like a bid  
Let me rewind it like a vid  
"Did he just say that?" Yes, I did  
And they wanna get it like I live  
God damn mother fucker what I gotta give  
Way back in DC, I live  
On the way to that everlasting life  
Will they rob you? Yeah, they might  
Hold up, wait a minute, veer to the right  
On this road to success, I've faced my fears  
Then hop on that flight

I've upgraded  
I've upgraded  
I've upgraded  
I've upgraded  
I've upgraded

My bitch bad got a sick figure  
Play 1 show and get 6 figures  
We build bigger, money tall as a mountain, bitch  
I've got Hilfigers, like goddamn  
Yes sir, I know who I am  
I'm that main man Martin, now you're kicking out Pam  
Just riding 'round with my Gina in that all-black Beamer  
All the way from Maryland whipping out West Coast vino  
Hold up, now check my demeanor  
Yeah, your girl bad, my girl meaner  
I've upgraded

I've got the Akira on the wall  
I just can't follow their law  
Swear to god they know me  
They don't know me at all  
And its all right, it's alright  
I've upgraded

Let me bring in them new kicks like Timbaland  
I gotta reboot with this upgrade  
My metaphors on Cloud 9 and the meter behind them is so vague  
Before I created this universe, I had to fly to the Bermuda first  
6 on the beat then we queue the verse  
Now I'm in another world when the flow emerge  
Feel like I'm in a 5th element  
I'm on my element lost in paradise  
Its me, you and Leeloo Korben Dallas  
And lost in paradise  
Never by chance like a pair of dice  
I don't give a fuck about their advice  
I'm under the planet, no I'm not manic, bitch I'm decompressed  
Know they can't stand it cause I pilot it and manned it the best

All they demanded was I gave up and laid dream to rest  
GOD DAMN!  
Hold up, wait a minute, fuck all that shit  
I left Earth ages ago to avoid and duck all that shit  
You know when we on  
Making music that's gon' survive for eons  
Bloodshed from America to Sierra Leone  
That's that shit I can't be on  
That's the reason I be gone  
Yes, I keep it professional  
Like Luc Besson and Leon

I've upgraded  
I've upgraded  
I've upgraded  
I've upgraded  
I've upgraded
