

Join the underground

Loikaemie

On the streets - you're feeling alone
But you're not really - on your own
You've got a look around - no sense to be found
You're an alien - join the underground!

You think - you don't need no cops
You feel - that you hate snobs
So there are many reasons to be different
Many reasons to search - for a good friend

Join the underground
Be free!
Join the underground
That's the place to be
Join the underground
Support real ideals
Join the underground

We're not working together - with greedy cunts
We don't wanna die - like their stupid sons
Reality - is not on the surface
You don't know where? - look at my face!

Misbehaving - it's our free choice
An easy way - to have a voice
Outside! - that's not our game
We'll fight! - 'cause it's a shame

Join the underground
Be free!
Join the underground
That's the place to be
Join the underground
Support real ideals
Join the underground

Society sucks - we've got to get away
But we've got to stay - !!!!!get out of our way!!!!
So we will 'cause - burning streets
You will see - outrages kids

And afterwards - we'll climb down
To the underground - with a stolen Crown
We'll have a party - We're good a friends
We'll have beer - well, lots of cans!
