

AVAILABU

Lojay

O girl I wanna feel on your silicone first
'Cause it's been a long time I seen you undress
I tell you I'm helpless against your waist
Girl, I've been outside the Bourdillon gate
And I been waiting for a million days
I'm a bit obsessed with your way oh way

Booty thicker than lava
Smoke on your body Waza
Can I put in my faith, oh faith, oh faith in your holy fire
See your figure been chasing me
And the science is original
Casamigos in system
It's only ending one way

She remember the bumbum receiving
Say me fire with handsome delivery
Now I'm the nigga you ring when you drinking
And the nigga you sing when you tipsy
Oxygen, oxygen
Before I suffocate I call you odo
Before I suffocate oh pour me water
If you ever need Lolo
You know I'm always gon' be

Availe, and I'll be availe
And I'll be availe
And I'll be available o
Availe, and I'll be availe
And I'll be availe
And I'll be available o

Her booty belong to Osha
Her booty belong to Osahlobuah
Say make you lean on my shoulder
Say make you lean on me on the low
And when I pull up in Range Rover
The girlie turn water halele
And when we finish in red room
Shey you go enter my room

I remember the bumbum receiving
Say me fire with handsome delivery
Now I'm the nigga you ring when you drinking
I'm the nigga you sing when you tipsy
Oxygen, oxygen
Before I suffocate I call you odo
Before I suffocate, oh pour me water
If you ever need Lolo
You know I'm always gon' be

Availe, and I'll be availe
And I'll be availe
And I'll be available o
Availe, and I'll be availe
And I'll be availe
And I'll be availe
And I'll be availe o
