

Fools

Lola Amour

Anticipating
Waiting for the thrill
I'm captivated
I don't know how I feel
I'm suffocating
You seem so unreal
And I can't keep waiting
So I'll go for the kill

(I say your name) Then I shiver
(You say my name) It feels like fever
Not it's got me begging

You can do whatever you want to
Baby, I'm no fool
'Cause even angels have demons on their shoulders too

Relieve the tension
Dance with me skin to skin
I've no intention
But I don't see no ring
It's a temptation
And I wanna give in
So forget your reasons
God gave the right to sin

(I say your name) Then I shiver
(You say my name) It feels like fever
Not it's got me begging

You can do whatever you want to
Baby, I'm no fool
'Cause even angels have demons on their shoulders too

And you can say whatever you want to
Baby, I'm no fool
I know you want me like I want you too
