

One Eye Open

Lola Blanc

Heard voices in the night
Whispers of double lives
So I backed from where your knife
Went in
Dark eyes without a face
Now that I'm on the case
I lay confidential
A deal with the devil
I won't leave a trace

Watching every move you're makin'
I'll keep my guard up
Lie awake and now you've crossed that line
I'm up all night
I'm going to sleep with one eye open

The trust we made went broke
Lost in mirrors and smoke
You laugh but now the joke's
On you
Look closely where you step
Look right and to the left
Cause you got a sickness
And I got a witness
You'll never suspect

Watching every move you're makin'
I'll keep my guard up
Lie awake and now you've crossed that line
I'm up all night
I'm going to sleep with one eye open
Wait for when you're gonna to trip
And if you do, I'll make sure you admit
You picked the wrong side now
I'm right behind, you better sleep with one eye open

You better keep one open
You better keep one open

Watching every move you're makin'
I'll keep my guard up
Lie awake and now you've crossed that line
I'm up all night
I'm going to sleep with one eye open
I'll wait for when you're gonna to trip
And if you do, I'll make sure you admit
You picked the wrong side now
I'm right behind
You picked the wrong side now
I'm right behind
You picked the wrong side now
I'm right behind
You better sleep with one eye open
