

Summer Night

Lola Marsh

Bright eyes, tell me why
They're playing us like toys
Break your silence for
We gotta make some noise
We gotta shout out loud
We ain't gonna start a fight

Dark skin, tell me how
They're changing all the rules
Telling, selling us
Their lies, we are no fools
We gotta shout out loud
We ain't gonna start a fight

And if they're gonna chase me
No work but I'm not lazy
They're never gonna get my peace of mind
We're fine, don't need no guidance
To shake them off their blindness
Is that a way to go? Soon we'll find

And if you're cold and naked
Let's find the wind of the summer night
Of the summer night
We're going strong and steady
We'll never win, we're gonna fight
We're gonna fight

Cold and naked
Wind of the summer night
Cold and naked
Cold and naked
Wind of the summer night
Cold and naked

So don't you think it's time to go?
But I wait for the smoke to clear
Golden fools are rushing in
To roll our sharpened fear
We gotta shout out loud
We must start a fight

And if they're gonna chase me
No work but I'm not lazy
They're never gonna get my peace of mind
We're fine, don't need no guidance
To shake them off their blindness
Is that a way to go? Soon we'll find

And if you're cold and naked
Let's find the wind of the summer night
Of the summer night
We're going strong and steady
We'll never win, we're gonna fight
We're gonna fight

And if you're cold and naked

Let's find the wind of the summer night
Of the summer night
We're going strong and steady
We'll never win, we're gonna fight
We must start a fight

Cold and naked
Wind of the summer night
Cold and naked
Cold and naked
Wind of the summer night
Cold and naked

And if you're cold and naked
Let's find the wind of the summer night
Of the summer night
We're going strong and steady
We'll never win, we're gonna fight
We're gonna fight

Cold and naked
Wind of the summer night
Cold and naked
Cold and naked
Wind of the summer night
Cold and naked
