

# Intrusive Thoughts

Lola Young

Hey there, intrusive thoughts  
You don't make sense at all  
Wish you would go away with some paracetamol  
Hey there, intrusive thoughts  
Maybe I'm wired all strange

All these intrusive thoughts  
Don't know what's real or not  
They scream inside my head  
Wish I could kill the lot  
I've got intrusive thoughts  
Maybe I'm wired all strange  
All strange

A thousand of you like an army  
It's weird 'cause you don't wanna harm me  
Kind of messed up that you are me  
Can't we just play nicely

Fuck you, intrusive thoughts, you intrude on everything  
This better shut you up, upping my meds again  
Why did you come around and show me I'm wired all strange

I could jump off this balcony, and no one would care  
And my friend wants to kill me, I know it, I swear  
And I'm not what I thought when I thought that I wasn't all the  
re

A thousand of you like an army  
It's weird 'cause you don't wanna harm me  
Kind of messed up that you are me  
Can't we just play

Thousand of me at the party  
Would've been nice if you asked me  
Kind of messed up that you are me  
Guess we just play nicely

Oh hey there, intrusive thoughts  
We got off on the wrong  
Foot back there, come on in  
I'll put the kettle on  
They're just intrusive thoughts  
And maybe I'm not all that strange
